

Dynamic Resources is the premier international retail services company that specialises in the project management of new store openings, shop-in-shops, store refurbishment, fixture installations, graphic/window displays and site surveys throughout Europe.

Dynamic Resources was established in 1994 in New York. We now have offices in Portland, London (European Headquarters), Dublin and Dubai. We have the history, experience and coverage to cater for needs of retailers, brands and manufacturers.

Our own brand has been built through consistent quality, customer focus and our ability to work internationally.

Our services include:

- Project Management
- Retail Interior fit-out
- Shop-in-Shop
- Showroom
- Fixture Installation
- Graphic Displays
- Refurbishment
- Site Surveys
- Maintenance

## CLIENTS

| Deckers (UGG Australia) | Marc Jacobs        | Zara              |

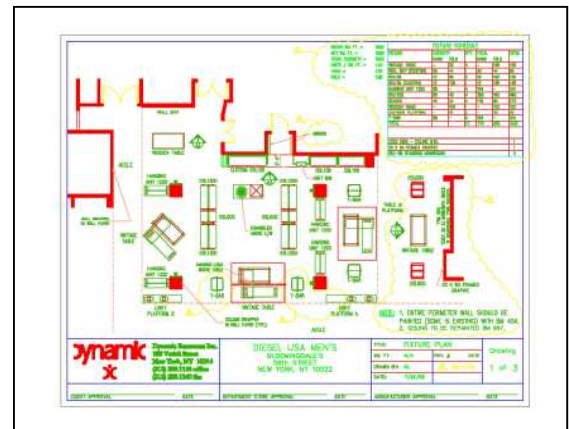

## INSTALLERS

Each installation takes place with carefully selected, retail specialists, who are local to the area and are key members of our team. Our objective is to complete the project quickly, safely and skillfully, with minimal disruption to the retail space.

## REPORTING

Reporting and communications are two of the most important elements in our process. Dynamic will ensure the information is delivered to the customer quickly and accurately. Clients can access Dynamic's own dedicated web based reporting tool, Ireact at any time. Contact us for a demo.

### STORE REFURBISHMENT

Dynamic has vast experience in undertaking complete store refurbishments, either in new sites or refurbishment of existing retail units.

---

- Carpentry/joinery
- Air conditioning
- Sprinkler systems
- Electrical
- M&E
- Decoration
- Signage
- Flooring specialists
- Security systems

---

### WASTE MANAGEMENT

On our projects and in the office, Dynamic Resources makes a concerted effort to have as small an impact on our environment as possible. On the jobsite we recycle: Cardboard shipping and packing materials, metal and plastic from old fixtures, and any other material that we can keep out of a landfill.
